## In-Wall Power & Signal Bay

MIW-XT

SKU: 43158    UPC: 50616008488

MIW-XT extends noise free, safe power from Panamax / Furman Power Management components to remote panel displays, ceiling mounted video projectors and powered sub-woofers.

MIW-XT extends noise free, safe power from Panamax / Furman Power Management components to remote panel displays, ceiling mounted video projectors and powered sub-woofers. Discreetly hides behind electronic equipment for a neat, clean, code compliant and professional installation.

### Features:

- Ultra-thin profile can allow equipment to hang less than one inch from the wall.
- EMI/RFI noise filtration built into outlet receptacle.
- Power and signal lines are hidden in the wall behind panel displays for a clean, tidy and professional installation.
- Extend Connected Equipment Policy to remote equipment when used with Panamax/Furman Power Management components.
- Accommodates optional MIW Signal Line Modules (sold separately, contact Panamax or Furman).
- CSA Certified for code compliant installations.
- 3 Year Product Warranty
