

FURMAN

Key Switched Remote System Control Panel

RS-1

SKU: 172433 UPC: 654061002178

The Furman RS-1 Remote System Control Panels provide a simple way to control AC equipment from one or more locations, using only inexpensive, low-voltage wiring. Limit one per system.

The RS-1 can be used to control the Furman ASD-120 Sequenced Power Distributor, the Power Link, Power Port, Remote AC Controller, the MiniPort Power Relay series, or the PS-8R, PS-8R II or PS-PRO II Power Sequencers, as well as other equipment that needs a switch contact at a remote location.

Features

- Locking key switch
- "System On" indicator LED
- Maintained contact "Start ON/OFF Sequence" push-button
