

# AC INFINITY

8" Stainless Steel Duct Clamps - 2 Pack

AC-DCA8-2

SKU: 173246

**AC Infinity AC-DCA8-2 8" Stainless Steel Duct Clamps, 2 Pack** is designed to secure various ducting components together. It features a heavy-duty stainless steel (SAE grade 316) construction with a worm drive lock. In addition, our clamps must pass a strict quality control process to ensure securing and tightening is smooth, the worm-drive will not get stuck, and will not slip after installation. Dual type screw-head enables both Phillips or flat-head screwdrivers for adjusting the clamps. Each clamp is coated with a rustproof and corrosion-resistant gloss finish. Two clamps are included in each pack.

## Features:

- Designed to secure duct components together, such as ducting and fans.
- Stainless steel (SAE grade 316) construction with worm drive lock.
- Each unit is coated with a rustproof and corrosion-resistant gloss finish.
- Easily tighten the clamps using a Phillips or flat-head screwdriver.
- For Duct Sizes: 8 | Material: Stainless Steel | Pieces Per Pack: 2
