## Nest Hub Max 10" Smart Display - Charcoal Black

GA00639-US

SKU: 160197    UPC: 842776110060

Enjoy all the functionality of the Google Assistant and a 10" touchscreen with the chalk Google Nest Hub Max. It is equipped with Wi-Fi connectivity to browse online content control your compatible smart home devices and connect with other local smart devices; Bluetooth is also built-in to enable streaming from your favorite compatible device. The touchscreen helps simplify on-screen app navigation and displays search results photos videos footage from your compatible smart security camera and more. A physical camera and microphone switch allows you to disable the microphones and camera for added privacy.

### Video Calls

With the Nest Home Max you can make video calls to loved ones and stay in sight while multitasking with auto-framing.

### Video Messages

Leave video messages for friends and family on the Nest Hub Max and other compatible devices.

### Live Photo Albums

After creating a Live Album with Google Photos the Nest Hub Max automatically displays your best photos. Share Live Albums with friends and family so they can see your latest shots without manual updates.

### Use the Google Assistant to Find Your Photos

See any picture in your Google Photos library on the screen by simply asking the Google Assistant.

### Ambient EQ

The Nest Hub Max automatically senses and matches more than 16 million combinations of light and color in any room so the photos you display on the screen blend into your home décor and adjust to the brightness of the room.

### Check in While You're Out

Keep an eye on things at home with the built-in Nest Cam. Check in for a live view and get motion and sound alerts on your phone. An optional Nest Aware subscription offers continuous video recording familiar face alerts and more.

### Home View

Forget about switching between apps. Manage your compatible connected home devices like thermostats lights and more from the dashboard or with your voice.

## Home Entertainment

Control compatible home entertainment devices like game consoles speakers and streaming media players from the screen or with your voice.

## YouTube Your Way

Experience YouTube with the 10" HD screen and built-in speakers. Watch your favorite clips jam out with YouTube Music and watch live TV with an optional subscription to YouTube TV.

## Built-In Speakers

Stream music from apps like YouTube Music Pandora and more. Listen to news podcasts and audiobooks.

## Face Match for Proactive Notifications

Face Match recognizes you and displays your relevant notifications not everyone elses. Get personalized information like upcoming events video messages and more.

## Personalized Home Screen

With help from the Google Assistant your reminders calendars commute information and more are available at a glance.

## Assignable Reminders

Leave reminders for anyone in the household. Your reminders pop up front and center on the home screen.

## Recipes

Ask the Google Assistant for recipes to see step-by-step directions. You can also get answers to questions like cooking times measurements.
