Thermostat Enhanced

EB-STATE6LP-01

SKU: 178802 UPC: 627988005010

Ecobee Smart Thermostat Enhanced comes equipped with the essential features to start saving you up to 26% annually on heating and cooling. Connect to SmartSensor for better comfort in the rooms that matter most. Ecobee thermostats work seamlessly with Apple HomeKit on all iOS devices including Apple Watch, and leading smart home ecosystems including the Google Assistant. Automatically adjusts to the desired temperature when homeowner is home or sleeping. Pre-heats or pre-cools the home before homeowner arrives home. Comes with everything needed for a quick and easy installation, including screws and drywall plugs, trim plate with built-in adaptor plate, PEK, wiring diagrams and a quick start guide.

Features

- ENERGY STAR® certified
- Save up to 26% on annual energy costs
- Control from anywhere on iOS and Android
- Apple HomeKit + more integrations
- Compatible with SmartSensor

Enhanced design, inside and out.

- Radar technology for our most advanced occupancy sensing ever.
- Crystal clear touchscreen with a 50% larger display and smooth waterfall edges.

Comfort without compromise.

ecobee Smart Thermostat Enhanced learns your temperature preferences and your schedule, so your home is just the way you like it.

- Automatically lowers the temperature when you're sleeping to keep you cool and comfortable.
- Pre-cools or pre-heats your home before you arrive, so it's comfortable the moment you walk in.
- Works with available SmartSensors to detect which rooms are in use and adjusts the temperature accordingly.

Easy from install to everyday use.

Install your new thermostat in 45 minutes, and control from your phone, tablet, or Apple watch.

- Everything you need for installation is included in the box, including mounting hardware.
- Compatible with most HVAC systems.
- Control hands-free with your preferred smart home system like Amazon Alexa or Apple HomeKit.

Works in harmony with leading smart home ecosystems including Apple HomeKit.
