## What is the Ultimate Performance tan tape?

The Ultimate Performance tan tap is a non-stretch rayon based tape with a zinc oxide adhesive. Water repellent and hypo-allergenic this tan tape is used for joint immobilisation support of muscles joints and ligaments.

## When can I use the Ultimate Performance tan tape?

The Ultimate Performance tan tape can be used to support muscles joints and ligaments and is an ideal strapping for a range of sporting activities and joint immobilisation.

## How does the Ultimate Performance tan tape work?

Featuring serrated edges for easy tear width and length ways the Ultimate Performance tan tape is a non-stretch rayon based tape with zinc oxide adhesive providing superior strength. With improved breathability this rayon based tape has a soft silk feel and is water repellent latex free and hypo-allergenic. The zinc oxide used in this tan tape is a mild astringent and has antiseptic properties helping to block irritants from coming into contact with the skin which minimises infection and promotes healing.

## What size is it?

38mm x 13.7m.
