

WiFi Smart Lock - Silver

PR0-AUG-SL05-M01-S01

SKU: 177623

Upgrade your deadbolt with the all-new August Wi-Fi Smart Lock.

Remotely lock or unlock the door, check door status, grant virtual guest keys, and see who's coming and going. Or use your favorite voice assistant to control your door. Our smart lock is easy to install and attaches to your existing deadbolt on the inside of your door so you can keep your original keys. And with built-in Wi-Fi, our lock requires no additional bridge to connect.

With August door locks, you won't believe what your door can do. Experience a front door that locks after you leave and unlocks when you approach. You have the power with the August app from your phone or Apple Watch.

Features

- Connection made simple - Our smart lock requires no additional hardware to connect to Wi-Fi, so you get full voice and remote access functionality without the fuss. It's set and go.
- Compact design - Simple, clean design to fit any home's style. Stunningly beautiful. Amazingly powerful. August Wi-Fi Smart Lock does more with less.
- Easy install - Intuitive design attaches right to the existing lock on the inside of your door - so you can continue to use your existing keys. Renter friendly with minimal assembly.
- Your phone or watch is your key - Control and manage your door with the August app on any iOS or Android smartphone - or use your Apple watch to come and go. Setup takes minutes and functionality is simple with the August app.
- Remote Access - Experience August's powerful benefits of a key that works everywhere. With the August app, remotely let Mom in when she arrives early or secure your door if the kids forgot to lock when leaving.
- Guest Keys - Manage access to your home from anywhere. Send secure keys to friends, family, or people you trust instantly, all from the August app. Never hide keys again or worry who has a copy.
