

Outdoor Sub 120 12" Passive Subwoofer

ODSUB120

SKU: 155761 UPC: 810123023004

Outdoor Living subwoofer enclosures disappear just below the surface of the ground, with only its unobtrusive “mushroom cap” port visible. The enclosure is constructed of high-density polyethylene, the same material that ensures a long life for underground water systems. This enclosure can withstand flooding rains and wild temperature extremes, and has been successfully tested underwater and in environments from -20°F to 185°F.

The woofer’s low-heat design is vented through the “mushroom cap,” providing a constant flow of fresh air while always protecting the system from harsh weather and water. The flared port system, combined with our polypropylene cone woofer and a high-intensity magnet structure, adds deep, musical bass to the whole area with no chuffing or extraneous vibration. Bury the subwoofer nearby, or install it under your decking, and add a surprisingly vibrant low end to your outdoor entertainment.

Features

- 12" (30.5cm) mineral filled poly cone woofer.
- 2.5" (6.4cm) high-power oversized voice coil
- 4-layer on fiberglass bobbin
- 8-Ohm Impedance
- Maximum Input Power 500 Watt
- Subterranean design
- Dark Bronze (canopy)
- Size (H x W x D, barrel, pipe, and canopy) 34.5" x 15.8" x 34.8" (87.6 x 40 x 88.3 cm)

Frequency Response	28-120Hz ±3dB
Recommended Amplifier Power	20-1000 watts per channel
Sensitivity	Room: 91 dB, Anechoic: 85 dB
Impedance	8 ohms Compatible with 4, 6, or 8 Ohm rated amplifiers.
Low Frequency Transducer	12"(30.5cm) mineral filled poly cone, 2.5"(6.4cm) high-power oversized voice coil, 4-layer on fiberglass bobbin
Inputs	Speaker Wire
Weight	62 lbs. (28.1 kg)

Dimensions barrel only	15.8" x 15.8" x 20.1" (40cm x 40cm x 51cm)
Dimensions canopy	8.6" x 14.3" x 14.3" (21.8 cm x 36.2cm x 36.2cm)
Dimensions barrel, pipe, and canopy	34.5" x 15.8 " x 34.8 " (87.6 cm x 40cm x 88.3 cm)
