

4" In-Ceiling Speaker with 8-Watt 70V Transformer

FC104T

SKU: 25196 UPC: 612079182848

This compact, full-range, 4" (127mm) speaker is equipped with a damped, high-compliance cone which provides excellent low frequency reproduction and smooth extended response. Model FC104T also offers a wide dispersion angle which reduces the number of speakers necessary to achieve total coverage in low-level distribution systems. This new model features an all new transformer that provides tap setting from .5w to 8w providing easy system balancing.

Features
