

## 12 Space CWR Data Swing Wall Rack, 26" Deep

CWR-12-26PD

SKU: 66980    UPC: 656747112874

The 12-RU Middle Atlantic CableSafe Cabling Wall Mount Rack with Plexi Door offers 24" of usable depth for mounting multiple patch panels and other voice and data equipment where floor and wall space is limited. The reversible left- or right-side swing plexi front door is designed to provide added security to the valuable equipment placed inside your CableSafe Data Wall Cabinet. Thanks to the full swing opening you have easy access to the gear stored inside the rack.

### Features:

- Engineered to facilitate passive thermal management
- Large opening on back panel with a 12.5 x 12.5" cutout for electrical pull-box
- Ships with front rackrail at 4" setback position to accommodate cable managers
- Large knockouts for conduit and cable entry
- 4 D-Rings included for enhanced cable management
- Robust welded construction provides a 250 lb weight capacity
- Center section and back pan made of 16-gauge steel phosphate pre-treated and finished in a black textured powder coat
- Rackrail constructed of 11-gauge steel with tapped 12 to 24 mounting holes

### CWR-12-26PD Specifications:
