

9" Dual-Purpose In-Wall Enclosure w/ 5" Mounting Plate

ENP0905-NA-V1

SKU: 171061 UPC: 804428434139

The 9-in Dual-Purpose In-Wall Enclosure is engineered to provide storage of structured wiring and AV components. The ENP0905NAV1 is constructed of Wi-Fi transparent material to manage wireless components and AV devices at point-of-use locations, like directly behind a TV or other media centers. It can also be used for structured wiring purposes, as smaller-sized options in the existing line of On-Q enhanced structured wiring enclosures. The ENP0905NAV1 is compatible with devices like Apple TV, Roku, Amazon Fire TV, network switches, 3rd party structured wiring components and more. Includes a 5-in elevated mounting plate, cover, trim ring and drywall clips, allowing for both new construction and retrofit installations.

Feature

- Designed for in-wall storage and distribution of structured wiring and AV components
- Can be placed behind most TV wall-mounts including SANUS premium TV mounts
- Compatible with devices like Apple TV, Roku, Amazon Fire TV, network switches, 3rd party structured wiring components and more
- Comes with removable mounting plate that features 1.5-in of elevation to accommodate larger devices and frees up space in the enclosure
- Tool-free cover is low profile and designed to snap into place providing a "flush" appearance to wall surface
- Knockout configurations support conduit and in-wall wired connections, while a cable pass through on cover allows for outside cable connections
- Features (2) AC knockouts to accommodate a single gang junction box to power devices in enclosure
- Universal mounting grid maximizes compatibility with 3rd party devices without additional mounting brackets
- Features drywall clips to allow both retrofit and new construction installations
- UL Listed and constructed of Wi-Fi transparent ABS plastic to ensure uninterrupted performance of wireless devices
- Proudly made in the USA
