

Maestro Magnetic Low-Voltage Dimmer - White

MALV-1000-WH

SKU: 170802 UPC: 27557687638

The Lutron MALV-1000M is designed for 1000VA magnetic low-voltage use. This switch comes with LED lights to indicate the preset light brightness level. For multi-location dimming from up to 10 locations, swap your standard three- and four-way switches with the MALV-1000M and the Lutron MSC-AD. The Lutron magnetic low-voltage dimmer uses standard single-pole and three-way wiring to make installation a breeze.

Features

- White
- 800 Watts
- 120V
