

PIR Image & Motion Sensor Camera

QZ-8103-840

SKU: 71939 UPC: 857497008237

The Image Sensor is a motion sensor with a built in still camera. The motion sensor has a range up to 40ft. Like the motion sensor, it can be installed for pet sensitivity, reducing the risk of a false alarm in homes with pets, but it also has the unique ability to take still photographs.
