

IF 1.50mm Fine Pitch Indoor Direct-View LED Display Cabinet

IF015H

SKU: 73459 UPC: 887276211046

Important Notice: This product is special order only. It is non-cancellable and non-refundable.

With more businesses turning to LED signage for an enhanced customer experience, Samsung's fine pixel pitch IF Series displays offer an ideal combination of superior picture quality and intuitive usability. The IF Series combines Samsung's leading video processing technologies with High Dynamic Range (HDR) picture refinement to add clarity and sophistication to featured content all within a compact, easy-to-maintain design. In turn, indoor users can deliver more realistic and memorable content without incurring additional costs or added burden.

Samsung's IF Series displays leverage LED HDR scene adaptation technology to showcase a detailed and realistic picture. Through this process, customized algorithms analyze and optimize gradation and brightness levels within individual content scenes while also preventing dazzling. IF Series users also benefit from dynamic peaking that empowers displays to reach peak brightness levels nearly two times higher than standard LED maximum brightness norms.

Features

- Industry's highest-quality LED diodes
- Superior picture quality
- Advanced color calibration
- Energy-saving cabinet design
- Embedded Receiver
