

15A Rack Mount Power & Lighting w/ Surge Protection, 8 Outlet

PDLT-815RV-RN

SKU: 14038 UPC: 65674707308

Middle Atlantic PDLT-815RV-RN is a special power supply designed to power and protect your system while providing illumination at the same time. Use this unit to add power outlets to your setup and improve visibility in your rack at the same time.

This unit features 15-amp power to (8) rear outlets, which have been spaced to accommodate plug-in power supplies. Its clean ground surge suppressor design will not pass noise contamination to the ground. Both remote and LED notification of surge suppression are available when protection is compromised.

Features

- Combines power distribution and lighting in convenient one space package
- Retractable front lights illuminate rack components
- Includes surge protection with notification; will not pass noise to ground
- Includes two rear USB power ports to power LT-GN series work lights
