

DENON

Hi-Fi Turntable with Speed Auto Sensor

DP-400

SKU: 73747 UPC: 883795004497

Rediscover your passion for vinyl with the Denon DP-400 Hi-Fi turntable with speed auto sensor. Strong construction and elegant design blends seamlessly into the existing Denon Design Series. The curved, horizontal tracking angled tonearm lifts automatically and stops the platter when vinyl reaches the end of playback. Weighted, belt-driven platter supports 33 1/3 rpm, 45 rpm or 78 rpm records with precision that's faithful to the original recording. Integrated phono equalizer creates an open, enveloping sound stage for your cherished albums with detailed, accurate reproduction. Includes MM cartridge and supports MC cartridges. Exclusive, removable dust cover doubles as a display stand.
