

1 Space Device Mounting Rack Shelf, 8" Deep - 4 Pack

UFA-8-4

SKU: 69185 UPC: 65674714050

The UFA-8-4 from Middle Atlantic is a set of four 1 RU rackshelves designed for mounting cables and small devices in rack enclosures contained in houses of worship, concert venues, recording facilities, A/V installations, and more. They can attach to the front or rear of standard 19" equipment racks. The sturdy steel construction can hold up to 35 lb on the 8" deep shelf.

Pre-cut holes and slots simplify cable management and device mounting. Plus, there are tie-down points for fastening your equipment. A face panel can also be mounted on the shelf, even after it is installed and populated with items, giving a neat and clean appearance. Installation requires screws that match the threading of your rackrails.

Features

- Attaches to the front or rear of standard 19" equipment racks
- Universal face-after design accepts a faceplate covering
- Pre-cut holes for cable management and mounting small devices in racks
- Reduces cable stress and clutter
- Weight capacity of 35 lb
- Depth of 8" to hold miscellaneous cables and gear
- Sturdy steel construction
