

44 Space High CFM Split Rear Door

MW-CFRD-44

SKU: 68165 UPC: 65674710059

The MW-CFRD-44 from Middle Atlantic are rear doors with built-in fans that are designed to be installed on 44-space rack enclosures. These cupboard-style split doors help to protect equipment from overheating. 6 fans are included on the doors, which direct the airflow upwards and away from the cabinet. You can adjust the placement of each fan, and add 10 more fans if needed.

Features

- Removes heat from high density installations such as servers and DVRs
- Split rear door design pulls hot air from rear and directs it upwards
- Fan placement is adjustable to match project needs
- Comes with 6 fans, together rated at 1,320 CFM in free air
- Up to 10 additional fans can be added for up to 3,520 CFM of movement

CFM	1320
Depth	3.97"
Height	78.13"
