

Smart Water Valve with Meter.

ADC-SWM150

SKU: 166714 UPC: 85001077304

Alarm.com ADC-SWM150 Smart Water Valve+Meter uses cutting-edge technology to monitor your water usage and detect leaks of any size, anywhere in your home. Whether it's a burst pipe or a dripping faucet, have peace of mind that your home is protected against water damage. Set up rules to automatically shut off your main water supply when a leak is detected by the Smart Water Valve+Meter or water sensor (sold separately, not required). Get informed about your water consumption and take action to lower your water usage.

Features:

- Whole-home leak detection
- Water consumption monitoring
- Automatic water damage prevention
- Open/close water valve remotely
- Automatically shut off water when paired with a water sensor
- Modular design
- Z-Wave Plus communication
- Z-Wave S2 security protocol

Note: Additional parts required: Installation will require additional fittings to connect the ends of the valve to the pipe. The type of fittings needed will depend on the existing pipe size, material, and threading type as well as applicable plumbing codes.
