Reference FTEQ Dual 12" Subwoofer – Multivoltage

FTEQ-12

SKU: 173691 UPC: 664254030963

Featuring dual 12" force-cancelling active Kevlar drivers, each powered by a dedicated high output 1000 Watt amplifier, with onboard DSP that offers wireless setup and control via a mobile device app. Delivering a reference-grade audio experience the FTEQ-12 brings unprecedented sound performance and beauty to every integration.

Features

- **Force Canceling Dual Drivers** – Dual active Kevlar High Back-EMF drivers are mounted in a perfectly opposed configuration which cancels cabinet vibrations and transfers all energy into the room for incredible bass output.
- **Bi-Amplified Design** – Each driver is powered by its own 1000W amplifier enabling the subwoofer to play frequencies down to 17Hz resulting in teeth rattling output as it shakes your home's foundation.
- **Luxury Style** – New high-gloss lacquer finish in striking Piano Black coats a 1" MDF Cabinet. A subwoofer you'd be just as proud to show-off, as well as listen to.
- **Auto Setup** – DSP room correction easily configures the EQ settings with the push of a button. Allowing for the maximum listening experience wherever these are placed.
- **Flexibility** – With the optional wireless audio kit you can place these subwoofers anywhere in a room to create an immersive listening experience.
