42" Plastic Enclosure w/ Trim & Hinged Door

ENP4250-NA

SKU: 161677 UPC: 80442843397

Constructed with a robust wireless transparent ABS plastic material this lightweight low-profile enclosure is designed to integrate wireless devices into traditional structured wiring installations.

New enclosure design enhancements will save you valuable time and money all while still providing a clean centralized location for the homes wired and wireless services.

Features

- Made with ABS plastic the enclosure is designed to integrate wireless devices without interference
- Door and trim ring add 1.2" of depth for cable headroom and 3rd party device compatibility
- Reversible hinged door easily snaps into integrated trim ring without tools and swings a full 180 degree
- Trim ring is integrated with door and conceals drywall cutouts for clean finish and smooth transition
- Universal mounting grid maximizes compatibility with 3rd party products without additional brackets
- Extra venting along the vertical plane of the door keeps components cool
- Tapered design allows enclosures and covers to stack for efficient transportation and warehousing
- UL Listed and constructed with highly durable ABS plastic material
- Proudly made in the USA
