

Universal 5G-Ready Communicator-AT&T

BAT-CONNECT-A

SKU: 155059 UPC: 85774400852

Alula's new BAT-Connect is the ultimate system takeover device, easily upgrading legacy security platforms to a modern, mobile experience. Much more than a basic communicator, this intuitive device smartly bridges intrusion security, video and automation with the Alula iOS or Android Apps. Fueled by the encrypted, lightning-fast Alula network, system control is delivered instantly to the smart devices your customers already know.

Armed with the BAT-Connect, security pros can streamline their takeover business, cut install time and simplify operations. The easy-to-install communicator is broadly compatible with common panels, giving security dealers a game-changer upgrade for 15-Million security systems online today.
