

## Rack Mounted Power Strip w/ Top-Mounted J-Box, 20 Outlet

PDT-2X1020T

SKU: 68246    UPC: 65674707300

The PDT-2X1020T 20-Amp PDT Thin Power Strip with (20) Outlets and Top-Mounted J-Box from Middle Atlantic is a power strip with a long thin footprint that has been designed to take up minimal space within your rack or enclosure. The unit is preassembled at the factory, making for easy installation in your setup. All mounting hardware is also included. This model is unique in its ability to provide isolated ground configurability.

It is designed for use in dry indoor locations only. Although it is a dual-circuit model, it can also be configured to operate as a single-circuit unit if needed.
