

SAVANT

Neon Light Strip - Outdoor - 10M

STP-NEON10MOD-00

SKU: 159992 UPC: 863184000811

Savants modern take on "Neon" is a great product for any application where you are doing artistic or direct accent lighting. This product has a super diffuse coating which ensures a solid strip of light rather than dots of leds and provides a look akin to old school neon but with all the flexibility of an RGB controllable LED. This product is designed to be viewed directly (such as bar/shelf/architecture accents) where a distinct line of light is required.

Neon lights strips can be custom cut in 1m increments.
