Flood Probe Sensor

FP280

SKU: 170021 UPC: 781410956322

The Resideo Honeywell FP280 Flood Probe Sensor intended for use with Honeywell 5821 and 470-12 wireless transmitter sensors. When the FP280 senses water it sends an alarm to the directly wired transmitter, which then sends the alarm initiating signal wirelessly to the Honeywell control panel.

Features

- Built-In Resistor
- 16.5 ft Wire Lead (No Polarity)
- Wall or Floor Mounted
- Self-Adhesive and/or Screw Mount
