

2 Space Tight-Pattern Vent Panel -12 Pack

VTF2-CP12

SKU: 55344 UPC: 65674703352

The VTF2-CP12 Contractor Pack of 2U Tight-Pattern Vented Blank Panels from Middle Atlantic is a pack of vented blank panels designed for use in a standard 19" equipment rack. Use a blank panel to cover unsightly open space in your rack and protect your equipment from dust and other foreign debris without restricting air movement. Each panel's vented face promotes adequate airflow to help maintain low operating temperatures in your enclosure, but also features a tight hole pattern for improved aesthetics and restricted view inside of your rack.

It is constructed of steel with flanged edges, features a black power-coat finish, and occupies 2U of rack space.

Features

- Increased Air Flow
- Flanged Design
- Solid Construction
- Cover & Protect
- Durable Finish
- 12 Pack
