

## Motion Series CI 6.5" In-Ceiling Speaker

MC6

SKU: 169775    UPC: 810123025565

By far the most popular size for in-ceiling speakers, the MC6 features a 6.5 woofer with higher power handling, greater output capability, and improved bass response over the smaller MC4. This model works without a built-in enclosure to allow the speaker to use more airspace for higher performance. For applications where sound control is desired, an optional retrofittable back enclosure is available separately. As with all Motion series CI speakers, the MC6 uses MartinLogan's signature Folded Motion Tweeter for precise clarity and incredible realism to meet all your entertainment needs.

### Feature

- Folded Motion Tweeter
- Woven Fiberglass Cone
- Spring-Loaded Binding Posts
- Micro-Perforated Grilles
- Proprietary Vojtko Crossover Networks
- Hand-Selected Components
