

## 15A Contact Controlled Power w/ Surge Protection, 9 Outlet- 6 Controlled

PDC-915R-6

SKU: 23440    UPC: 65674712570

The Middle Atlantic Products Contact Controlled Power Unit with 6 Controlled Outlets, 9 total, is a PDC series rackmount power unit that provides you with the versatility of using an existing control system or a simple remote switch to control the system's component power. You can easily reboot system components or power down the system via the controlled power unit.

Eliminating the need for a computer, the power unit can be used in conjunction with an existing control system or remote power switch. Power regulation in the form of integrated 2-stage surge suppression is also incorporated in to the power unit.

Featuring 1 outlet at the front and 8 at the rear, the power unit also integrates 6 contact-closure controlled outlets. You can configure the unit for momentary or maintained control style; or normally opened or normally closed operation.

### Features

- Rear distribution outlets with one front convenience outlet
- Includes six controlled outlets on rear (dry contact control)
- Includes surge and spike protection, with notification
- Occupies one rackspace
- 9 foot cord, with front power switch
