

## Flat Panel TV Cable Organizer Kit with AC Connector

50-6623-CON-KIT

SKU: 165101    UPC: 66055901699

DataComm Electronics easy to install Flat Panel TV Cable Organizer Kit w/ Duplex Power Solution is used to install power and hide audio/video cables in the wall behind your wall mounted TV, amplifier, and other audio/video devices. This power kit allows you to pass low voltage cables and power through the wall, creating a professional, clean look for your home theater.

### Features

- Low profile design fits behind the industrys thinnest mounts and TVs
- 15 Amp / 125 Volt tamper resistant duplex receptacle allows power to be installed behind a wall mounted TV or similar application
- Metal mounting wings are attached to the top and bottom plates and fasten against the drywall as you tighten
- Flexible screens close the interior openings of the top and bottom plates
- package include :
  - Pre-assembled top plate with 15 amp/125-volt duplex receptacle and prestripped electrical building wire
  - Bottom plate with easy push-in connectors
  - 6 ft. extension cord
  - Screws, and instruction sheet
