

Re-Entrant Horn Speaker with 25V/70.7V-30W Transformer

GA-30T

SKU: 24951 UPC: 612079132782

The GA-30T speaker is a utility horn perfectly suited for voice paging and music transmission. Double re-entrant horn construction optimizes speaker output to penetrate ambient sound levels. This 30-watt model incorporates a compression driver with ceramic magnet and includes a combination 25/70.7-volt line transformer with multi-position knob switch for selecting power taps. Unit is also equipped with wiring for an 8-ohm connection to facilitate installation when a transformer is not required.

Features

- Dual Voltage, Knob-Adjustable Impedance Selection for 25/70.7V Line Connection
- Multi-Function, Re-Entrant Horn Loudspeakers Offer Efficient Sound Penetration and Dispersion for Paging, Music and Intercom Use
- Sturdy Construction for Long-Term Indoor and Outdoor Use
