

PoE to Wi-Fi Bridge

ADC-W110

SKU: 165950

Alarm.com ADC-W110 PoE to Wi-Fi Bridge makes it easy to install any Alarm.com Power over Ethernet (PoE) camera, eliminating the need to run cable wiring throughout a home or business.

Simply plug the device into a wall outlet to provide a PoE camera with both electrical power and secure, reliable Wi-Fi connectivity.

Please take note that there are two options for connecting the ADC-W110 to the wireless network: Wi-Fi Protected Setup (WPS) Mode or Access Point (AP) Mode. The ADC-W110 integrates with Alarm.com, providing easy post-installation GeoArm troubleshooting and enhanced security.

Product Features:

- Simple plug-in installation
 - Secure, reliable Wi-Fi connectivity
 - Eliminate the need for wires
-
- Dimensions (W x L x H): 2.4 x 2.2 x 3.6"
 - Ethernet Interface: 10 / 100 Mbps RJ-45 IEEE 802.3 af PoE
 - Wireless: IEEE 802.11 b/g/n 2.4 GHz
 - WiFi Security: WEP, WPA, WPA2 Wi-Fi
 - Operating Temperature: 32°F - 113°F (0°C - 45°C)
 - Operating Humidity: <90%
 - Operating Voltage: Min: 100 V, Max: 120 V
