Archer A8 delivers high-performance and affordable home WiFi with total speeds up to 1900 Mbps. Handle simple tasks like sending e-mails or web browsing on the 2.4 GHz band and bandwidth-intensive tasks like online gaming or 4K/8K UHD streaming on the 5 GHz band—all lag-free.

With 3x3 MIMO, Archer A8 is capable of transmitting and receiving data on three streams. 3x3 capable computers—like Macs—pair perfectly with A8 to perform at max with much higher efficiency than 2x2 MIMO routers.
