

Forward Rear Rackrail for DWR - 12RU

DWR-RR12

SKU: 67267    UPC: 65674700570

Rear rackrail kit for the DWR Series Wall Racks.

Features

- A pair of Forward Rackrail
- Includes a square hole that unlocks the ability for all of our Forward panels, vents and cable management to be clicked in without using ANY rack screws!
- The inside of the rail provides cable management lacing so you can easily run all your interconnections in the rack without having to improvise tie off points.
- Compatible with tool-free Forward cable management accessories for an even faster cable routing experience!
