VENUE SERIES

Venue Series LS Pro Package

VS-LS PRO PACKAGE

SKU: 171111 UPC: 810042171466

The Wet Sounds VS-LS Pro Package is a complete outdoor audio system. It includes a 4-channel amplifier with a weather-proof enclosure, two tough outdoor speakers, and two burial-rated subwoofers that deliver deep bass. The amp's power output is a perfect match for the speakers and subs that are included in the package.

The rugged four-channel amplifier is designed to drive multiple Wet Sounds Venue Series speakers or subwoofers. It delivers 200 watts per channel into four channels. The included water-tight landscape enclosure has room for the amplifier and a compact media streamer like the Sonos Port (not included). Its built-in fan keeps your gear running cool. Internal AC power outlets and an external power cord facilitate an easier setup.

The pair of VS-69 PRO speakers feature a built-in 70-volt tap for use in a commercial distributed audio system. They're weather-resistant, and the included multi-angle mounting brackets mean you can wall-mount them or hide them in the garden with the use of the optional landscaping spikes.

Wet Sounds VS-12 LS-SUB subwoofers are designed to be buried in your landscaping and to deliver deep bass for your sound system. Each features a 12" high-output band-pass subwoofer that can play frequencies as low as 20 Hz, protected by a composite enclosure with a weatherproof port cap that can stand up to the elements.

Features

- Outdoor sound system includes amplifier, two speakers, and two partial-burial subwoofers

Wet Sounds VS-1200-AMP:

- 4-channel amplifier with outdoor enclosure
- 200 watts x 4 at 4 ohms
- 300 watts x 4 at 2 ohms
- frequency response: 5-20,000 Hz
- signal to noise ratio: 88 dB
- independent 3-position gain switches for channel pairs 1/2 and 3/4
- selectable subwoofer crossover
- weather-resistant enclosure:
 - internal cooling fan with 100° thermo-controlled switching
 - internal 110V AC power outlets, and an external power cord for easier installation
- amplifier dimensions: 11"W x 2-1/8"H x 7-1/8"D
- enclosure dimensions: 12-1/2"W x 17"H x 8-3/4"D

Wet Sounds VS-69 PRO outdoor speakers (2):

- weather-resistant speaker with horn loaded compression driver and reinforced composite 6"x9" mid-bass driver
- aluminum passive radiator delivers extended bass response
- power handling: 150 watts RMS (300 peak)
- nominal impedance: 4 ohms
- 70-volt tap settings: 10, 20, 40, or 80 watts

- frequency response: 20-20,000 Hz
- sensitivity: 92 dB
- adjustable bracket offers flexible mounting options
- 11-11/16"W x 8-7/16"H x 10-3/16"D

Wet Sounds VS-12 LS-SUB outdoor subwoofers (2):

- 12" high-output bandpass subwoofer
- burial-rated enclosure with weatherproof port cap
- recommended power: 150 watts RMS
- frequency response: 20-200 Hz
- sensitivity: 90 dB
- nominal impedance: 4 ohms
- 14" diameter x 32-3/16" height
