

EdgePower Supply, 54V 150W

EP-54V-150W

SKU: 155106 UPC: 810354023972

The EdgePower EP-54V-150W is a high-power, modular PSU system designed to connect to EdgePoint routers or switches, and provide reliable power to attached PoE devices. The EP-54V-150W uses modular PSUs for flexible configuration options. It can utilize two modular PSUs to provide up to 300W of power, or be configured to provide up to 150W of power with an automatic PSU backup. The EP-54V-150W consists of a rack-mountable, two-bay housing and control unit, and includes one AC-DC 54V, 150W PSU module. The second PSU bay can house an AC-DC or DC-DC PSU module (sold separately).

Features

- Reliable and Convenient UPS for WISPs
- UNMS Remote Management
- Automatic Alerts for Power Outages

With a flexible, modular design, the EdgePower 150W Modular DC Power Supply from Ubiquiti Networks offers 150 watts of power and can be expanded up to 300 watts using either an AC-DC or DC-DC module (sold separately). The secondary power module can also be configured to act as a backup PSU should the primary unit fail. Whether using both modules or just one, the EdgePower PSU can be connected to EdgePoint routers and switches and also provide power to attached PoE devices. Once configured, the intuitive user interface gives network administrators control over all features offered by this PSU along with remote management when it is connected to a LAN via the built-in Fast Ethernet port.

High Power

The EdgePower provides up to 150W of power output. With an optional PSU in the secondary bay, the EdgePower may be configured to deliver up to 300W of power.

Backup PSU

The secondary PSU may be configured as a backup PSU. In backup mode, the secondary PSU remains inactive and offline. If failure of the primary PSU is detected, the secondary PSU automatically activates to supply continuous power.

Web UI

Designed for convenient management, the EdgePower Configuration Interface allows administrators to configure and monitor PSU features in a simple, graphical user interface.

The EdgePower may be connected to the LAN for remote monitoring and configuration.

Features:

- Flexible, Modular PSU Design
- Supports up to Two 150W PSU Modules
- Secondary AC-DC or DC-DC PSU Option

- Power / Ethernet / PSU LED Indicators
