

# AC INFINITY

## AC-RDA1 4 Space Heavy Duty Rack Drawer w/ Faceplate

AC-RDA4

SKU: 173222

**AC Infinity AC-RDA4 Heavy-Duty Rack Drawer w/ Faceplate (4RU)** is designed to be mounted into standard 19-inch racks to provide storage space. The drawer can securely hold various rack equipment such as cables, headphones, tools, manuals, and microphones. Features a black anodized aluminum faceplate. The remaining sides are fully enclosed using heavy-duty 2mm thick cold-rolled steel with a powder coat finish, and a cable passthrough slot in the rear. This rack drawer takes 4U of rack space and includes a mat and a 10-32 rack mounting screw set.

The aluminum faceplate is constructed from a solid block of high-grade alloy aluminum at 3mm thickness, then finished with a brushed black appearance. The panel is then CNC-machined, rounding each corner and chamfering each edge for a high-end look. The handle is designed to be concealed when not in use for a clean appearance and can be retracted when you need to pull open the drawer. This design makes it the perfect match for high-end audio/video and home theater racks.

### Features:

- Designed to be mounted into any standard 19-inch rack to provide a secure storage space.
