

5.25" All-Weather Speaker - Black

AW5500BK

SKU: 55181 UPC: 93207057311

With their fully sealed design, aluminum grilles, and rugged PolyStone enclosures, the AWs can be fully exposed to the elements and still reliably deliver their indoor speaker sound quality for years of outdoor listening enjoyment. Their integrated galvanized steel brackets and unique shape allow a full 360 degrees of rotation allowing the listener to orient the active drivers toward the listening area. Pointing the active driver baffle towards the listener while the Low-Bass Radiator side faces the wall or ground gives you the ideal balance of clear mids, extended highs, and thunderous bass even in the tough acoustic conditions of the outdoors.

Features

- Single outdoor all-weather speaker
- Equipped with one 5.25-inch BDSS cast basket bass/mid driver
- Equipped with one 5x8-inch pressure-driven low-bass radiator
- Equipped with one 1-inch pure aluminum dome tweeter
- Frequency response: 45 Hz - 30 kHz
