**Insert A** – Leviton 23A002, Hai 23A001**Insert B** – Lutron LR-TEMP-FLSH, Savant SST-TEMP1-00, AMX ENV-VST-TSF**Insert C** – LG ZRTBS01, Savant CLUTHFM1-00, Peco 71487**Insert D** – Apriliaire 8083, Elan 8083, Honeywell FG-1625RFM, Interlogix ShatterPro II, Bosch DS11011**Insert E** – Apriliaire 8051, Elan 8051, Tekmar 84/86, Vantage FlushSensor

No Insert Needed – Crestron CHV-RTS/RTHS

Remote Device Mount A B C D E Inserts  
Only

62-5000

SKU: 173983

DataComm Electronics Remote Device Mount is used to mount HVAC and security sensors. Complete your project with a clean installation when the sensor is flush to the dry wall.

This is the simplest way to install a sensor. With this product there is no need to fish out wires from behind drywall, because the wiring is perfectly placed where you need it to be. Say goodbye to fishing for wires from behind drywall!

The Remote Device Mount also comes with five different sensor inserts that will fit most brands of all sensor types: security, temperature and HVAC sensors to name a few.

## Features

- Mountable platform with included brackets
- Can be mounted in most dry wall thicknesses
- Easy-to-remove Red Mud Shield keeps mounting surface clean and clear of debris
- Contains 5 paintable inserts to accommodate top brand sensors
- Includes center marks for simple placement in desired location
- Red Mud Shield indicates when to stop sanding drywall mud
- Red Mud Shield includes cable tie off point
- Complete installation with drywall mud to create a clean and finished look
