

8-Outlet 15A Surge Suppressor Strip

PST-2+6

SKU: 4212 UPC: 654061011903

For over 30 years, Furman has pioneered the development of AC power products for the most demanding audio, video, and broadcast professionals. With Furmans Power Station Series, everyone can reap the benefits of unrivaled power purification and unequalled surge protection. Today's overworked, outdated power grid delivers poor quality AC power. When connecting sensitive equipment to regular power outlets, AC noise masks and distorts critical signal information which cripples performance. This is why it's more important than ever to purify or clean the AC powering your sensitive audio/video equipment. The PST-2+6 gives you the high level of protection of a Furman power conditioner, but without all of the advanced features that the other Power Station products possess.

Features:

- 8 Outlet, including 3 wall-wart spaced outlets, plus 2 Cable satellite and Telco connectors deliver advanced protection
- Audible alarm indicates excessive power surge
- Compact design enables discrete placement
- From the #1 brand in professional power conditioning. Perfect for instrument rigs, home recording, DJ equipment, pro audio rigs and home entertainment systems
- Cable satellite and Telco connectors deliver advanced protection to connected equipment
- Audible alarm indicates excessive power surge
- Compact design enables discrete placement
