

## Music Streamer

MS-1

SKU: 178953

The new MS-1 is in response to dealers who have asked for a single stream option for RTI Music. Like the award-winning MS-3, the MS-1 seamlessly delivers high-resolution audio (24bit/192kHz) from the most popular streaming music services or from a local NAS to any room with a simple tap, fully integrated into an RTI system.

RTI Music supports multiple independent sources. Streaming sources include all popular streaming services. A client's personal music collection on a local NAS drive or computer can be accessed and fully integrated in the MS-1 with lossless audio (FLAC and ALAC) supported.

RTI Music and the MS-1 require an RTI processor for native control within the RTI control system.

### Features

- Multiple independent audio sources, one stream.  
Fully integrates with the RTI Integration Designer platform.
- Search through streaming services and local music with an integrated keyboard.
