

3 Space TOR Series Tilt Out Wall Rack, Flush Mount

TOR-3-20RP

SKU: 69155 UPC: 65674706072

Middle Atlantic's 3U Tilt-Out 20"D Wall Rack with Flush Mount (Putty) makes an optimal low-profile wall storage for engineering, security, or announcement equipment controls. This lockable, inconspicuous cabinet offers a 5.25" (3U) racking height and a 20" maximum usable depth. A simple installation is all it takes and you're ready to tuck away any mid-size high-value security or operation devices, with ease. This model has a 18-Degree tilt-out operating position and a 105-Degree service opening position, and this rack includes a 3-space rackrail on the inner wall, which makes it easier to use with rackmount equipment. The outside structure measures approximately 25 x 30 x 6" (WxHxD).

Utilizing 18-AWG gauge steel, the tilt rack has a 100 lbs weight capacity. It includes a 4 x 4" electrical box for high-voltage connections and an 8.5 x 8.5" knockout for cable pass through. It is finished in a putty varnish, and is UL listed in the US and Canada. This rack system gives electronic systems the pivotal treatment for which they were designed. Middle-Atlantic holds nothing back in convenience, utility, and ingenuity of design. The best device protection is right here

Material	Steel
Type of Closure	Flush Mount, Lockable Closure
Interior Dimensions	5.25 x 20" (WxD)
Shock Absorbent	N/A
Rails	3U rail space
Accommodates	20" Equipment
Carrying/Transport Options	None
Weight	<i>Not Specified by Manufacturer</i>
