

50 CFM Quiet-Cool Cabinet Cooler

CAB-COOL50

SKU: 23559 UPC: 65674718655

The Middle Atlantic CAB-COOL50 Quiet-Cool Cabinet Cooler features a single fan with 40 CFM airflow that provides exceptional cooling to the A/V equipment placed inside small cabinets, credenzas, lecterns, and entertainment centers. To protect your equipment from overheating, this quiet internal assembly activates automatically when the cabinet temperature reaches threatening levels. This unit features an aesthetically designed vent that can be painted to match any environment.

Features

- 50 CFM airflow provides adequate cooling for your equipment
- Fan activates automatically at 87°F (30.5°C) and turns off at 85°F (29°C)
- Pulls hot air out of small cabinets and entertainment centers and redirects it correctly
- Helps extend your equipment's life
- Vent can be painted to match the surroundings
