

Caseta BridgePro Dimmer Starter Kit

P-BDGPRO-PKG1W

SKU: 56034 UPC: 784276152952

This Caseta wireless remote home lighting kit from Lutron lets you control lights, window shades and room temperature from anywhere in the world via a free app on a smart device. Create scenes with multiple light and window shade configurations, enable geofencing for auto-on/off or notify you that you have left lights on.

Works with Caseta wireless lighting controls and Serena remote control shades, compatible with android and IOS devices, apple home kit, nest and select Honeywell Wi-Fi thermostats. Add dimmers and controls until your lighting is one hundred percent automated. All compatible products sold separately. (IMAP) smart bridge wireless lighting system. Control lights using an Android or IOS smart device (sold separately) includes two Lutron Caseta wireless plug-in lamp dimmers. Two Lutron pico remote controls. Two tabletop pedestals. Power supply for smart bridge. Ethernet cable included connects smart bridge to your router.

Free app available for android and IOS devices. Schedule automatic adjustment based on the time of day. Adjust multiple lights and window shades with the press of a button. Adjust temperature in your home or office. An ideal upgrade for your home and a smart convenience for new homes. No new wiring needed. All compatible products sold separately.
