

FURMAN

AR 9-Outlet 15A Prestige Voltage Regulator

P-1800 AR

SKU: 61052 UPC: 654061028130

The P-1800 AR accepts input voltages over a wide AC voltage range and transforms it to a constant output of 120V, $\pm 5V$. Voltages beyond that range may also be converted to usable levels, depending on the range variance.

Additionally, the P-1800 AR is a full-featured power conditioner that filters and purifies AC power, reducing line noise and ensuring optimum performance. Not only will your equipment perform better with Furman's Linear Filtering Technology (LiFT), but it will also be fully protected by our exclusive Series Multi-Stage Protection (SMP), and Extreme Voltage Shutdown (EVS). This circuitry provides the highest level of power protection available.
