

Maestro Timer - Biscuit

MA-T51-BI

SKU: 32404 UPC: 27557290340

The Maestro Countdown Timer helps you save money and energy by automatically turning off the lights and fans after a preset time. Using the Maestro Countdown Timer on bathroom exhaust fans can reduce the chance of a costly mold problem, and timers attached to garage lights can add an extra layer of safety when you return home at night. Use the large tap switch to turn the timer on and off, and use the rocker on the side to set the timer to the desired time-out option, anywhere from 5-60 minutes. Softly lit orange LEDs indicate the time remaining before turn-off. Save energy by using the Maestro Countdown Timer in closets, attics, basements, and other low-traffic areas to ensure the light is never left on for a long time. Coordinating Claro wallplates and accessories sold separately.

Features:

- For use with incandescent and halogen bulbs only
- Saves energy by automatically turning off a fan or light
- Use with exhaust fans to reduce moisture, mold, and mildew in bathrooms
- Use with lighting to ensure lights are never left on for a long period of time
- Controls a 3 amp fan or up to 600 watt and VA (5 amp) of incandescent and halogen or magnetic low-voltage lighting
- Tap on to start timer, touch rocker to adjust countdown time
