

Diva 250W LED+ Dimmer Switch - Taupe

DVSCCL-253P-TP

SKU: 72484 UPC: 784276092364

The Diva 250 Watt C.L Dimmer features advanced dimming circuitry that is designed for compatibility with most high efficacy light bulbs. Screw-in dimmable light emitting diode lamps (LEDs) and screw-in dimmable compact fluorescent lamps (CFLs) are a great energy-saving alternative to incandescent or halogen light sources; however, your standard dimmer will not dim these light sources. The Diva C.L works with dimmable LED and CFL screw-in bulbs up to 250 Watts and is also compatible with up to 600 Watts of standard incandescent and halogen bulbs, allowing you to control all 4 bulb types on the same circuit. It is designed to control a broad range of dimmable LED and CFL bulbs from a variety of brands including Philips, Cree, GE, Eco Smart and Lighting Science. With the same features as Lurtons Diva Dimmer, the large paddle switch turns the light on/off and returns to your favorite setting. The discreet slider adjusts the light level to suit any activity. Please see the Lutron Compatible Bulb List under Technical Specification to view the current listing of compatible bulbs that work with this dimmer. Coordinating Claro wall plate sold separately.

Features:

- For use with up to 250 Watts for dimmable CFL/LED bulbs & 600 Watts for incandescent/halogen
- Works with most dimmable CFL/LED bulbs and all incandescent/halogen bulbs (please see the Compatible Bulb List under Technical Specification below)
- Single pole or 3-Way applications
- Features a large rocker paddle switch and small sliding dimmer switch for precise lighting control
- Coordinating wall plate sold separately

Sub Brand: Diva Application: Lighting Control Type: Dimmer, 3-way/single-pole Color: Mounting: Wallbox Voltage Rating: 120 V Wattage: 600 W Actuator: Paddle switch Connection: Wire Leads Gang: Frequency Rating: 60 Hz Standard: UL, CSA, NEMA SSL-7A Type 2 Operating Temperature: 0 to 40 degrees Celsius Special Features: Controls 250 W dimmable LED/CFL (screw-base), 600 W incandescent/halogen or 350 W Hi-Lume 1 percent 2-wire LED driver loads. Paddle turns on/off. Slide up to brighten, down to dim. Provides reliable dimming of dimmable LEDs/CFLs, as well as halogens and incandescents.
