HDMI Cable High Speed

Feature

- CL-rated HDMI Cables with Ethernet have the greatest flexibility possible for ease of rack prep.
- With incredible data transfer speeds, ARC (Audio Return Channel), and ethernet support, InstallBay Ultra Slim Series HDMI cables let you plug into a better home theater experience.
- Supporting resolutions up to 4K, at 10.2Gbps (on cables 8 feet or less in length), the InstallBay Ultra Slim Series HDMI cables are ready for 4K, UHD Blu-ray, HD/4K satellite, HD cable, 4K gaming and HD internet.
- New 24K gold plated locking connectors help secure the cable without risk of damaging connected equipment.
- Multiple layers of shielding prevent electromagnetic interference to maximize noise isolation as well as protecting the other components from HDMI high speed emanations.
