

Receptacle Blade Inlet Propower Kit

45-0024-WH

SKU: 43080 UPC: 660559007952

DataComm Electronics Recessed Pro-Power Kit with Duplex Receptacle and Straight Blade Inlet is used to install power and low voltage cables behind your wall mounted flat panel TV, amplifier, and other audio and video devices. This power relocation kit allows you to pass low voltage cables and power through the wall, creating a clean and professional look for your home theater.

Features

- Low profile design fits behind the industrys thinnest mounts and TVs, requires 14/2 electrical building wire
- 15 Amp / 125 Volt tamper resistant duplex receptacle allows power to be installed behind a wall mounted TV or similar application
- Metal mounting wings are attached to the top and bottom plates and fasten against the drywall as you tighten
- Female end of included extension cord is recessed completely into the wall when plugged in to the straight blade inlet
- Male end of included extension cord has a 360 degree rotating flat head allows furniture to be placed flush against the wall for a clean finish
