

2-Gang Recessed Low Profile InBox

DBVM2C

SKU: 106937 UPC: 18997039620

Arlington's non-metallic combination power/low voltage TWO-GANG IN BOX™ is the secure, weatherproof way to install two outlets or devices or to mount a flat screen TV on an exterior wall. It features power in one side; and either a second gang of power or low voltage in the other side.

The job looks great! Wiring stays hidden behind the wall; plugs and connectors stay inside this recessed box. And the one-piece, low profile assembly installs in the wall – so only the cover shows.

Features

- Low Profile two-gang IN BOX
- For stucco, textured and rigid siding
- Non-metallic 22.0 cu. inch box
- Non-metallic
- Voltage divider
- Extra-duty clear weatherproof-in-use cover
