CONNECT PRO Case for iPad Pro 12.9" (5 | 6th gen) - White

72327

SKU: 178687 UPC: 041093723278

CONNECT PRO is the next generation of IPORT products for enabling iPad mobility in residential and commercial applications. Built upon a highly capable and modular platform, the CONNECT PRO line of products provide an unparalleled breadth and depth of capabilities for holding, charging, protecting and connecting iPad and iOS Devices. The CONNECT PRO Case provides both a Station interface and a Dock interface connector, allowing iPad to mount and connect to any product in the lineup. Case protects iPad from drops and falls up to 2 meters. Enable the Case lock to prevent un-authorized USB-sync or removal of iPad from the case. Combine the internal lock with any Station containing a Case lock to deliver a fully secure temporary locking system. Add a hand strap at any point for extra utility or use the strap loops to connect a shoulder strap or any other harness. Use commercial cleaners with confidence to wipe down the entire case, including exposed electronics for a fully sanitary solution.

The Case is ready out of the box for charging, USB communications and network data connections in concert with capable mounting stations (stations sold separately). Utilize all iPad features while in the Case including power button, microphones and speakers. The symmetrical front bezel with hidden speaker wave guides enables a refined aesthetic when mounted on a wall. Say hello to the flexible future of mobile business with IPORT's CONNECT PRO suite of products and CONNECT PRO Case at the core.
